## Customer Reviews

This is another great book by Scott Foresman. I use this for home schooling. It is well written and easy to understand. I ordered this as a used book but it was in excellent shape. Thanks

Great book, has all the information about Geodes you would want outside of an archaeologist's in depth book. very satisfied and happy with the purchase of this book.

Covers 6th grade subjects.

Great condition, like new! Now my son's backpack weighs 5lbs. less since he doesn't have to transport to and from school :)

I used this with my 8 year old for home school after school.

This was exactly what I was looking for!
