Strange, bizarre, is the realm the unknown, we like to believe that the unknown is very, very rare, if we're more known than unknown. The study of the paranormal more common. The believe of unknow that you question your believe of what you know!

It was a great book. I like the fact that each chapter was written by a different author. I would recommend this book highly.

Each story different and unique to circumstances seen and felt around ones with abilities. From warm heart felt stories to scary ones. Very good read on real accounts.

Very much enjoyed the fabulous stories contained within this book! The diversity of paranormal experiences really prove the existence of an afterlife.

This is a compilation of short stories some are creepy and some are generic paranormal. I gave it 3 stars because it's better than average.

I found the book very interesting, some stories were better than others, although overall very good. Recommended, worth the time.
