Who This Book Is For If you want to excel in the use of Infusionsoft to develop a set of common applications or project types and solutions effectively, this book is perfect for you. This book will empower you to provide better results for your clients, faster! It is assumed that you are familiar with and use Infusionsoft.

What You Will Learn Set up and configure features that will enhance new user creation using Infusionsoft Attract leads and build your list efficiently Understand the different strategies to sell and get paid Create amazing customer experiences by following up and automating messages Master techniques to use Infusionsoft for internal administrative functions Make better business decisions by mastering the reporting functionality Save time and simplifying day-to-day usage using Infusionsoft Get to know the Ninja hacks while working with Infusionsoft efficiently.

In Detail Infusionsoft is an all-in-one software-as-a-service (SaaS) for small business sales and marketing. It empowers businesses with the same level of automation and personalization that were previously only available to large corporate enterprises with deep pockets. You can easily manage customer relationships, target communications in an automated manner, and sell their products/services online effectively.

Starting with recipes on the general setup and core competencies related to Infusionsoft, you will then learn about tools to enhance user experience. Further on, you'll dive deep into different strategies to attract, sell, and wow your customers. You'll also explore different ways to manage administrative tasks and reporting, which are crucial to perform better workflow management. Later, you will become proficient in lead generation and lead management, referral management, report generation, and working with the campaign builder. Finally, the book closes with unsupported ninja hacks to take your business strategies into the stratosphere!

Style and approach A recipe-based guide that covers real-life scenarios on optimising marketing automation, lifecycle management, lead generation, inventory management, and adding ecommerce functionality

Customer Reviews

This is awesome! If you're new to Infusionsoft (like me) this is a no brainer. Step by step guides to setting up campaigns etc. I ordered the hard copy to write all over for my notes and the kindle version to take when traveling. With this I feel like I will be able to open up infusionsoft and use it to its full potential, rather than just using it as an auto-responder.

Just skimming through this book has given me so many ideas on how to improve my Infusionsoft account!! I highly recommend this for anyone looking to build some really cool automation into their business!

This is the most amazing book on the market that will help you understand both the fundamentals and advanced tips and tricks that will unlock your business growth. This is a must have book!

As someone who has used Infusionsoft for a long time I even found a few nuggets to use that make this book gold.
