#### Customer Reviews

I received a free physical copy of this book from Scholastic Press in exchange for an honest review. When an IceWing dragon prince falls in love with a NightWing and has two dragonets, Darkstalker and Whiteout, it creates a rift between the two tribes. Darkstalker is an animus like his father, Prince Artic, but the two are as different as night and day and get along even less. An animus is a dragon with magical abilities but that magic comes with a heavy price. No one knows exactly how the magic works but it is thought that the more magic an animus uses, the more they lose their soul, go crazy, and become evil. Fathom, a SeaWing animus learns this hard truth when his

grandfather, Albatross, kills the majority of his royal family. He is then sent to the NightWing tribe to keep an eye on Darkstalker, the NightWing's first and only animus dragon and keep him from using his power. Clearsight, a gifted NightWing who can see the future clearer than other seers, knows that there is darkness and destruction in the future, as well as war between the IceWing and NightWing tribes, and will do everything she can to make sure those timelines don't happen. But she never anticipated that love would block her 'sight' and hide the worst future of all. This was my first time reading anything by Tui T. Sutherland and I was not previously aware of the original Wings of Fire series until after I received this. I do believe this is a prequel series and I don't think it is necessary to read the Wings of Fire series first but I will be reading that series soon so I can make a more sound judgement in the future. I really enjoyed that the characters are dragons.
