This is the textbook used at son's school. I got the LvI A for first grade, and it helped a lot. We are going to use this at home for summer, for advanced learning. We have gone through several pages, and the first few lessons were more of a repeat from the LvI A book, which is somewhat boring for my child since he "knows it all" and think it's "so easy". I personally find the whole series of this book a little too repetitive. But my son's teacher said that children absorb the lessons better if it is repeated over and over. Also, she said that having the same activity makes it easier for the kids to do the activities on their own, since they already know the format.

Easy to use! Just what I was looking for to help students catch up on missing phonics skills.

Excellent

This is a thorough Phonics book and my daughter enjoys doing it.
