## Synopsis

WHAT WOULD HAPPEN TO MANKIND IF AN ALIEN BACTERIA ARRIVED UNEXPECTEDLY ON OUR PLANET? Meteorites land on Earth every day. Most no bigger than grains of sand. But what if one of them contained a bacteria that was alien to our planet? This series has everything from aliens to fairies with a Dystopian parallel universe and an MI6 agent that refuses to quit.

**THE MOON STEALERS : PART 1** The unusual disappearance of a young boy from a graveyard catapults two of his school friends on an adventure beyond their imagination. By unravelling ancient codes and riddles the children journey through the bowels of Edinburgh Castle in an attempt to find the key to their friend's disappearance. But it's a race against time as the very existence of mankind is hanging in the balance.

**THE MOON STEALERS : PART 2** With mankind facing the greatest danger it has ever known, a small band of humans desperately seek help from the most unexpected place - an ancient bond between two worlds that had long been buried. As the children's search for their friend continues danger lurks in the most innocent of places.

**THE MOON STEALERS : PART 3** The bacteria has evolved into the deadliest of threats. The human race has lost its dominance and survival in the new world appears hopeless. But not all are happy to give in. If they can stop fighting amongst themselves some of the survivors may be able to stand up to the alien threat and rebuild the human race.

**THE MOON STEALERS : PART 4** Humans are being hunted. Forced into hiding they learn to adapt and survive as best they can. But others are planning more. Stripped of technology they are forced to seek a more natural solution. One borne from the natural resources the Earth can offer, healing the rift between the human race and the planet.

## Customer Reviews

The moon stealer chronicles were great. I wasn't expecting them to be that good I thought it was just going to be another one of those old boring syfi books about aliens, but this book had a twist it was part syfi fantasy and really plain awesome I recommend this book to those people who want a book to keep them on the edge of there seats.

This is an amazing series it keeps you entertained from beginning to end.

Good story, however there are some grammatical errors that spoils the story.

I loved all 4 books. I could not wait to read the next book. Books are worth purchasing.

A bit far out even for SiFi
