Customer Reviews

I thought this was going to have some actually creative ideas in it. Instead just the usual crap and not even written well. Not even a good example of how to write a book. Who really publishes this junk? Could you at least use a grammar check before it goes to print. Shame on for passing off what seems like a grade school kid's essay for an actual piece of literature worthy of a price tag!

my dad wont let me buy books o this cuz its a waste of mney... he sys. no i belive him. i got the sample to see if it might be worth it... ABSOLUTELY NOT!! all it said was "we all have those days were we are soooo bored... ya im bored ready the intro. then all i got from the sampe was to walk dogs (which i do anyway) and to cook. this is a waste. it was a waste of my time. even if i only read for two minutes. definitely dissapoinyed. if i could giv this a serious rating i would give it a negetive bazillion katrillion.

ok well if you have a kindle just try a sample and if you want to delte yhis book then just press the book down so i am talor swift and i hope you enjoyed my review sorry my words are some times messed up

Well, I read the book and was quite amazed on how the author brought it all together. It actually made sense not to be bored after reading this book because being bored can actually lead you possible depression or even other things. But to keep in contest, he gives a good enough list of things to do when you bored, give you tools on how to control your own mind on overlooking that feeling and finally gives you that empowering short story at the end which totally change the way things. You just have to read it until the end because of that story with the man with his 3 children. I absolutely loved it.

This was a very helpful read. I would recommend this book for anyone looking for creativity. Good reminder for creativity
