Childrens Books : Amazing Facts About Volcanoes (Great Book For Kids) (Ages 6 - 12)

Synopsis

Great Knowledge Book for KIDS A volcano is created when the Earth's crust ruptures due to the movements of tectonic plates either coming together in a collision or tearing apart from one another.

When this happens, the rupture causes gases, volcanic ash, and hot lava to erupt from a magma pocket below the surface of the Earth. Come and Join us for a great adventure about Volcanoes

Customer Reviews

Someone must have looked up Wikipedia and then put together a bunch of publicly available photos of volcanoes. If you want to put yourself to sleep this is it. Not really a children's book either.

Granddaughter read it for one of her my choice books. She is 9 and was fascinated and asked a lot of questions concerning the eruptions of the most recent volcanoes

Easy for my seven year old to understand and amazing facts for myself (26 year old adult) to learn.
:)
